Dr. Anne-Sophie Jannot

Associate Editor of International Journal of Medical Informatics

Dear Dr. Anne-Sophie Jannot,

On behalf of my co-authors, I am presenting the revised version of our manuscript, which combines healthcare pathway mining with probabilistic machine learning.

We have taken the feedback of the reviewers carefully into account and are confident that our revised manuscript will become an important contribution for the International Journal of Medical Informatics.

If you have any questions, please do not hesitate to contact me.

With kind regards,

Dr. Andreas W. Kempa-Liehr
